## THE LORD HAS DONE IT

I had been ill for a long time. I had tests done, including a scan.

The doctor told me that I had a problem with weak bones. I had never heard of the name of the disease she gave me.

I was very surprised, so I asked the doctor what I should do about this result.

She told me I had to undergo treatment that would involve annual injections.

Inside, I didn't agree. So I cried out to God.

Then, I told the pastor everything that was happening, and he began to pray for me throughout the whole process.

Then I went to the doctor to learn more about the treatment's advantages and disadvantages.

She told me that it would cause me pain but that I absolutely had to do it.

I was surprised by her insistence that I start treatment. So I agreed, but when it came time to schedule the appointment, she suggested a date that didn't suit me.

As it was December, with the fasting and prayer programme, I preferred to wait a little longer.

But the doctor pointed out that because of my insurance, given that it was December, I shouldn't delay.

In the end, I didn't go to the appointment.

I wasn't convinced.

Instead, they gave me a treatment pack to relieve the pain, as they do with cancer patients.

There were so many medicines.

I couldn't even stand up for five minutes, and I had to wear compression stockings all the time.

I felt as if my bones were filled with scales. I felt compelled to give up my second job, so oppressive was the enemy.

I called the man of God to inform him of the whole situation, and he continued to pray for me.

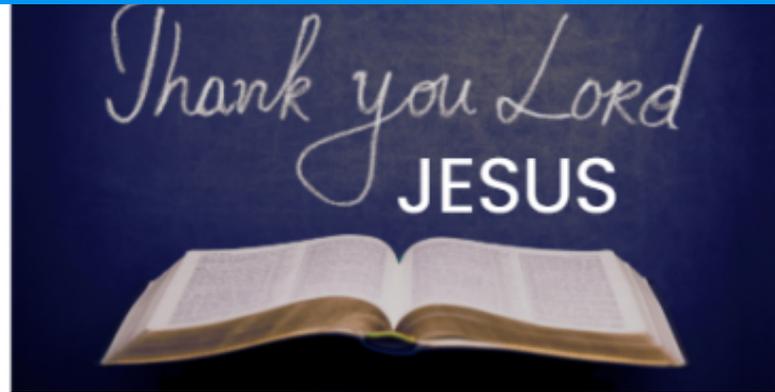

I knew that God would do something for me.

Every time the pastor prayed for me, it was as if a scale fell away.

Today, I am completely pain-free. I can feel my bones are free. I can stand for more than an hour. The Lord Jesus healed me.

I bless God for everything He has done for me.

## JESUS STILL HEALS

I was ill but I didn't know it. Although I did feel a little weaker physically.

Later, I had an appointment in Virginia with my sister-in-law, who is a nurse.

When she saw me, she said she could tell from my appearance that I wasn't well.

On my way home, I stopped at a clinic to have my blood and urine tested.

That's how they found out that my blood sugar level was 230 mg/dl. And my blood test results weren't any better.

She told me that in three days, they would give me the final results.

So they wrote me a prescription, which I started taking.

I had more tests done, including blood tests. I had an appointment the following week to get the results so I could continue my medical follow-up.

And the following Sunday, the pastor called on everyone to pray for all those who were ill. After hesitating, I finally approached him and he prayed for me.

And I felt something inside me had changed.

The following Monday, when I went to get my results, everything that had been listed as an illness had disappeared.

I feel very well today. The Lord Jesus has healed me.

You have declared Your strength among the peoples.*

### JESUS RESTORED MY VOICE

I had a sore throat. When I spoke, my voice didn't come out properly. It was so bad that I asked to be replaced when it was my turn to lead the prayer.

At the hospital, they told me there was no medicine for it, that I just had to rest my voice.

So I did my best to do that for nearly two weeks, but the pain persisted.

For the second time, I went back to the hospital, and they told me that since it was still there, they were going to operate.

I spoke to the man of God about it.

He asked me if I had prayed. And he added, pray because you need to use your voice to serve the Lord.

At that time, at church, we were being taught about praying for the soul through the spirit.

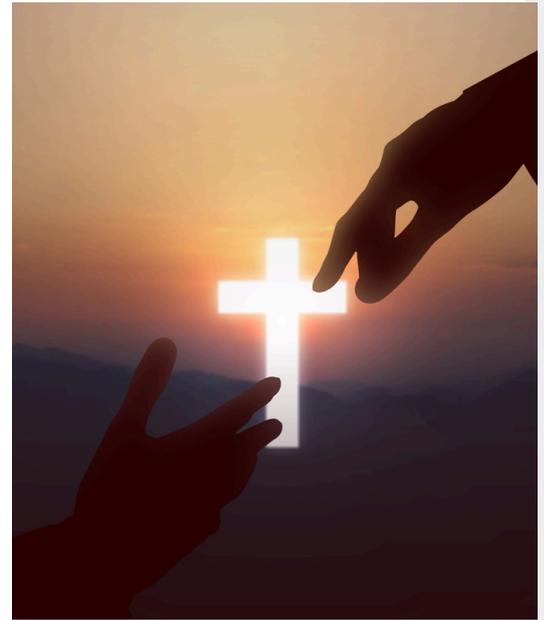

So I put what the hospital had told me on hold and focused on the Lord's teachings.

I began to pray over my soul through my spirit, standing on the Rock. I prayed fervently without distraction.

Today, the Lord has performed His miracle, and my voice comes out correctly without any problems.

The Lord is faithful. His Word is truth. Everything God says, He does.
